

Matija Milosevic

UX/UI Designer – Product Design

Profile

UX/UI Designer with 4+ years of experience designing end-to-end digital products for SaaS and AI-driven products across web and mobile.

I translate complex product requirements into clear, intuitive, and well-documented user experiences by working closely with product managers, engineers, and stakeholders throughout the design process.

Strong in Figma, prototyping, and design systems, with a growing focus on AI-assisted design workflows and modern product tooling.

I care about clarity, thoughtful collaboration, and building UX that helps teams move faster while creating meaningful value for users.

Certifications

Google UX Design Professional [Certificate](#) (Coursera)

Employment Experience

ux/UI Designer

SpaceVerse • March 2025 – January 2026

[spaceverse.studio](#)

- Led the product from zero-to-one, owning conceptualization, research, UX strategy, end-to-end design, prototyping, and testing
- Sole designer for the SaaS platform, delivering UX/UI flows, wireframes, and high-fidelity interfaces across web & mobile
- Designed and produced the landing page, brand assets, and social media content to support launch and growth

UX Design Lead

Amplitudo • January 2024 – March 2025

- Led end-to-end UX/UI design for SaaS and AI-powered products in fast-paced client environments
- Collaborated closely with product managers, engineers, and stakeholders to turn requirements into clear UX flows and intuitive interfaces
- Designed, documented, and evolved scalable design systems used across multiple products to ensure consistency and faster delivery
- Planned and ran user research, usability testing, and iterative improvements to reduce friction and improve engagement
- Delivered clear design documentation, prototypes, and handoff specs to support async collaboration across distributed teams
- Mentored designers and contributed to cross-team alignment, improving design quality and delivery speed

ux/UI Designer

Amplitudo • December 2021 – December 2023

- Designed responsive interfaces, components, and prototypes for B2B and consumer products across multiple industries
- Partnered with developers to refine implementation details and ensure design fidelity in production
- Mapped user flows and created wireframes to simplify complex features and clarify product requirements for stakeholders
- Participated in research activities and integrated findings into intuitive, data-backed design improvements
- Created internal design system

Graphic Designer

Amplitudo • October 2019 – December 2021

- Produced branded visuals and UI assets aligned with digital product guidelines
- Supported product teams with responsive web and mobile-ready designs
