Education

Specialist - Design & Visual Communications

Mediterranean University, Podgorica, Montenegro

October 2015 - July 2020

Skills

UX & Product Design

End-to-End Product Design · Product Strategy · User Research & Usability Testing · Prototyping · AI Design Workflows · Human-AI Collaboration

UI & Systems

Figma · Design Systems · Components, Variants & Tokens · Interaction & Visual Design · Responsive Design · Accessibility · Motion Basics

Collaboration

Cross-functional Collaboration · Design Documentation · Async & Remote Workflows · Developer Handoff · Agile Teams · Stakeholder Management

Languages

Montenegrin

English

Spanish

EU Passport

Matija Milosevic

UX/UI DESIGNER - PRODUCT DESIGN

Profile

UX/UI Designer with 4+ years of experience designing SaaS and digital products across web and mobile. I combine product thinking, UX fundamentals, and AI workflows to move from idea to validated solution quickly. Experienced in research, information architecture, interaction design, prototyping, design systems, and cross-functional collaboration.
I use AI throughout the design process while staying grounded in user needs and business goals. Focused on building intuitive products, scalable systems, and experiences that create measurable value for users and teams.

Certifications

Google UX Design Professional Certificate (Coursera)

Employment Experience

UX/UI Designer

Freelance · March 2025 - Present

- *April 2025 - January 2026*: Built and led SpaceVerse, AI-powered SaaS platform for music artists. Owned the product from 0 to 1: discovery, UX strategy, feature definition, UI design, prototyping, and launch preparation. Designed web app, mobile app, landing page, and scalable design system. Worked directly with stakeholders to shape roadmap, priorities, and product direction
- *March 2026 - September 2026*: Designed Explora, a specialized biotech tool designed to accelerate cancer research. Led the full design process from research to high-fidelity UI. Established the product's first design system. Reduced task time by 12.5% that saved nearly $1.2M in annual productivity costs. Used AI workflows daily to accelerate design exploration, iteration, documentation, and delivery

UX Design Lead

Amplitudo · January 2024 - March 2025

- Led end-to-end UX/UI design for SaaS and AI-powered products in fast-paced client environments
- Collaborated closely with product managers, engineers, and stakeholders to turn requirements into clear UX flows and intuitive interfaces
- Designed, documented, and evolved scalable design systems used across multiple products to ensure consistency and faster delivery
- Planned and ran user research, usability testing, and iterative improvements to reduce friction and improve engagement
- Delivered clear design documentation, prototypes, and handoff specs to support async collaboration across distributed teams
- Mentored designers and contributed to cross-team alignment, improving design quality and delivery speed

UX/UI Designer

Amplitudo · December 2021 - December 2023

- Designed responsive interfaces, components, and prototypes for B2B and consumer products across multiple industries
- Partnered with developers to refine implementation details and ensure design fidelity in production
- Mapped user flows and created wireframes to simplify complex features and clarify product requirements for stakeholders
- Participated in research activities and integrated findings into intuitive, data-backed design improvements
- Created internal design system
